

INFORMATIVE— DESCRIPTIVE

My Sister

Looking at my sister is like looking in a mirror. When I look at my sister I see brown hair, brown eyes and freckles. We go shopping together. We go swimming together. We go everywhere together. I love my sister, but some times she can be a pain in the neck but I get over it. My sister is very serious, but I am very playful. She has a different style than I do. She likes short short and I like pants. She likes tank tops and I like tee shirts. We are very different considering we're twins!
